SimpliMation is a custom automation company that specialises in supplying, installing and supporting automation for multi-residential and commercial spaces. We are constantly advancing our products and service offerings to stay ahead of the ever-changing tech industry. With a keen eye for detail, and a dedicated customer focus, we pride ourselves on world-class customised results. With us, you get more than a service; you get an experience.
Life. Simplified.

RESIDENTIAL

SimpliMation gives homeowners access to the luxury of convenient technology that manages their living space securely and practically. Our methodologies for home automation installations can be measured against international standards, while our services are innovative and proactive, to harness the full potential of our systems. We can retrofit tailor-made solutions or provide them off-plan.

**We provide tailor-made solutions off-plan
or that can retrofit into your existing
environment.**

**Our certified and
compliant installations
are performed
professionally &
efficiently.**

PRODUCTS & SERVICES

SimpliMation utilizes and installs only the best of the latest technology on the market today. We offer a range of solutions from entry level to larger, more robust systems. We collaborate with you, and your chosen team to custom-design the ideal solution according to your unique requirements.

Anything can be controlled through the touch of a button, from the palm of your hand. Lock doors, control lights, raise / lower temperatures, send audio and video to any room; anything is possible!

Combined with unobtrusive environmental sensors and cameras, your space will achieve levels of automation and security only ever dreamed of.

AUTOMATION

Implement and program your system to run automatically based on your daily routine. Control lights, audio and electrical devices and HVAC systems automatically or individually with an elegant keypad, smartphone or tablet.

Our automation solutions don't have to break the bank; start small, room by room and expand from there. Your comfort, safety, security and convenience are all at the heart of a user-friendly system.

These solutions can not only intelligently control energy efficient lighting, power, central heating, cameras, gates, garages, garden sprinklers, doors and windows, they can significantly reduce energy consumption; thus, saving you money.

We ensure that your most precious belongings are always close to your control: Automate, monitor and control your system from anywhere in the world using a device of your choice. Our user-friendly interface and controls are game-changers, and you'll wonder how you ever lived without them.

NETWORK & WI-FI

Your network is the beating heart that supports each and every smart device. Without a reliable and efficient network, even the smartest devices are rendered useless. It is essential that the network connection in your home or business is efficient and able to support the demands of this sophisticated technology. As your device collection grows, so your network and connectivity need to in order for your space to function optimally and the way you want it to. Elevate the security of your network with enterprise-grade equipment including routers, switches and access points. We'll coordinate with your local Internet Service Provider (ISP) to provide reliable and high-speed connectivity for your home and workplace and deliver both wired and wireless systems to meet your needs. Our team will also provide remote support once installation has been done.

AUDIO VISUAL

SimpliMation specialises in audio visual (AV) multi-room distribution. We also design and install home theatre systems, from smaller 2.1 stereo systems, to 9.1.2 giants and beyond.

We offer complete AV solutions; from small apartments, to medium and large homes, offices or retail centres.

Our top multiroom audio systems will suit the most discerning of tastes with exquisite sound and seamless integration. Multi-room systems allow you to listen to music and / or watch screens in any number of rooms. These also give users the option to make use of different sources in various rooms: watch TV in one room while listening to music in another.

With one touch of a button, conveniently control your home theatre system, videos, music, photos and files via a single remote or application. One button can set the scene by turning on your theatre system and tuning into the latest movie, dim the lights and close the curtains / blinds. Whether your preferred platform is DSTV, Showmax, Netflix, or any other online media, SimpliMation can simplify and maximise your audio and visual experience. Our superior systems allow our clients to spend more time relaxing, and less time hassling with complicated audio / video systems and configurations.

SECURITY

We are passionate about creating innovative technology that deepens the connection between people and what they care about most – homes, families and businesses. SimpliMation can advise and assist in the design and installation of effective security systems, whether you need stand-alone security or full-integration.

SimpliMation's security solutions give users access and control over IP cameras and intercom systems, and various other customised security equipment. Our systems ensure that owners or staff have the option to receive notifications and view live camera footage from anywhere using remote devices from any location. We do all this with elite products

HVAC & ENERGY

Heating, ventilation, and air conditioning (HVAC) control will ensure that your home is the perfect temperature, whilst limiting the environmental impact. One button can set your space on "Away Mode" to ensure greater overall energy saving. SimpliMation is focused on sustainability and efficiency, and we care for eco-friendlier, smart solutions.

We use only the best products when it comes to efficient energy consumption. Our team of skilled certified electricians implement these world class products in conjunction with reliable automated systems to provide stable power and protection for expensive equipment, along with power backup solutions to keep systems running optimally.

CINEMA ROOMS

Turn your home into a full-on cinema experience.

Without setting foot outside your door, enjoy movie-theatre-quality image and sound with a custom home theatre system. If you're looking for something a little smaller, we also equip pyjama lounges and media rooms – there are no limits for these remarkable devices.

We take all of your needs taken into account, from room design including lighting, seating and wall finishes, to audio visual, video system, control system and more. Our home cinema installation is done seamlessly, and renovations on existing systems can be arranged. Each of our finished projects comes with the handover of certified documentation, should you decide to sell.

LIGHTING & SHADING

As certified installers of various premium lighting systems, we ensure that you'll experience the full benefits of automated, responsive smart lighting and shading.

SERVICE & MAINTENANCE PLANS

We care for the systems that we install, and ensure that our customers have more than enough support on call once the project is complete. Whether it's a home security system, home theatre or full smart home automation, SimpliMation's service and maintenance plan ensures that every aspect of your system is up-to-date and fully functional.

WE TAKE PRIDE IN OUR WORK

SimpliMation's custom products and services have enabled businesses to spread their wings and soar into the digital age. Our solutions will maximise the comfort and convenience of your working space, allowing you and your team to focus on the core of your business while everything else takes care of itself.

We have seen automation spread its innovation in countless commercial spaces. There is always the option to start a system in one or a few small areas, but we're certain that once the potential is unleashed, the desire for more smart devices will grow right alongside it. A commercial automation system makes it possible for almost everything in your office, hotel room or restaurant. From optimising how teams work together, to creating an atmosphere with smart thermostats and automatic lighting, all whilst keeping everything conveniently, reliably safe with smart security.

COMMERCIAL

LARGE SCALE
DIGITAL DISPLAYS

HOSPITALITY

LIGHTING & SHADING

As certified installers of various premium lighting systems, we ensure that you'll experience the full benefits of automated, responsive smart lighting and shading.

Take charge of office operations with cost-effective, energy-efficient lighting control. Occupancy sensors automatically turn off lights in vacant areas of your commercial settings, and one button can shut off all the lights in the building.

Enjoy unparalleled quality, and ultimate control to create unique, unmatched ambient moods for your home, and the perfect environment for commercial spaces.

SMART OFFICE

With simple integration with Microsoft Outlook and any other personal information management systems, teams will easily be able to navigate the smart boardroom. Some of these smart features include aircons automatically switching on when a person is detected by sensors, blinds being automatically closed or opened, having a custom "meeting mode" to suit your custom preferences and much more. With these features, people can focus on their priorities and work more smoothly.

STRUCTURED WIRING / NETWORKING

Elevate the security of your businesses network with enterprise-grade equipment, including routers, switches and access points. We'll coordinate with your local Internet Service Provider (ISP) to provide reliable and high-speed connectivity for your workplace and deliver both wired and wireless systems to meet your needs.

Your staff will be able to work efficiently without interruptions. In the case of system errors or failures, our team provides remote monitoring, as well as quick service and support.

SMART GLASS

SMART OFFICES

SMART BOARDROOMS & SMART SPACES

SimpliMation is assisting in the evolution of smarter spaces by offering unparalleled tech solutions that enhance user experiences and support business goals, including the goals to go greener. Our fully integrated smart solutions will help you maximise usage, improve efficiency and encourage collaboration by creating a dynamic workplace environment.

Smart technology helps your team stay on track and avoid delays by giving you sophisticated yet simple controls everyone can use. Today's boardroom or conference room needs the efficiency, productivity, and elegance of the most up-to-date systems modern technology has to offer. Conduct meetings, brainstorming sessions and more with a single easy-to-use touch device to control the room for multi-media presentations or video conferencing.

SECURITY

A central component of a business is a security and surveillance system. It's essential to protect all of your assets; from important documents and equipment, to the people who walk in and out on a daily basis. Discreet security cameras, an alarm system, and 24/7 monitoring will ensure that your facility is well protected from every threat, including fires and water leaks. SimpliMation offers customised security plans to include access control, keyless entry, HD intercoms, and more.

HVAC CONTROL & MONITORING

Maximise energy efficiency, comfort and facility management with scalable building automation systems and connectivity solutions. Whether you're designing for energy management, environmental concerns, analytics or more, count on SimpliMation's solutions to help you meet today's building control challenges. Our building management system integration works seamlessly with any property type and any preference, for any industry.

SMART GLASS

Smart Glass or Switchable Glass allows glass to change from transparent to varying degrees of opaque on demand for privacy, custom shading, solar control, and transparent displays. Simply put: we make your glass intelligent.
